Start of Block: informed_consent

ic Informed Consent Participation is voluntary It is your choice whether or not to participate in this research. If you choose to participate, you may change your mind and leave the study at any time. Refusal to participate or stopping your participation will involve no penalty or loss of benefits to which you are otherwise entitled. **What is the purpose of this research?** The purpose of this research is to examine human judgments about automated systems. All data from this experiment are gathered for scientific purposes and will contribute to our eventual understanding of brain and visual function. These data may be published in scientific journals so that other researchers may have access to these data. **How long will I take part in this research?** Your participation will take approximately 4 minutes to complete. **What can I expect if I take part in this research?** As a participant, you will be asked to look at images presented on a video display and give responses with key presses or movements of a mouse pointing device. Your response may involve responding as quickly as you can, memorizing what you saw, making a judgment, or completing a questionnaire. You will also be asked to complete a demographics form. **What are the risks and possible discomforts?** If you choose to participate, the effects should be comparable to those you would experience from viewing a computer monitor for 15 minutes and using a mouse or keyboard, e.g., eye fatigue. You are free to take breaks throughout the session. **Will I be compensated for participating in this research?** You will be compensated \$0.80 for this study. You will still receive payment if you withdraw early. **If I take part in this research, how will my privacy be protected?** **What happens to the information you collect?** Your participation in this experiment will remain confidential, and your identity will not be stored with your data. **If I have any questions, concerns or complaints about this research study, who can I talk to?** The researcher for this study is Julian De Freitas who can be reached at 626.559.6401; #161 Morgan Hall, 15 Harvard Way, Boston MA, 02163; jdefreitas@hbs.edu. If you have questions, concerns, or complaints, If you would like to talk to the research team, If you think the research has harmed you, or If you wish to withdraw from the study. This research has been reviewed by the Committee on the Use of Human Subjects in Research at Harvard University. They can be reached at 617-496-2847, 1350 Massachusetts Avenue, Suite 935, Cambridge, MA 02138, or cuhs@harvard.edu for any of the following: If your questions, concerns, or complaints are not being answered by the research team, If you cannot reach the research

team, If you want to talk to someone besides the research team, or about your rights as a research participant.

Start of Block: attention_checks

att_1 **This is an attention check.** John is taller than Paul. Who is shorter?

- ☐ John (1)
 - ☐ Paul (2)
 - ☐ Neither John nor Paul (3)
 - ☐ Both John and Paul (4)
-

att_2 To show whether you are reading carefully, please select "Neither Agree nor Disagree" in the options below.

- ☐ Agree (3)
- ☐ Disagree (4)
- ☐ Neither Agree nor Disagree (5)

End of Block: attention_checks

Start of Block: attention check fail

att_checks Unfortunately, you have failed to answer at least one of the attention check questions correctly and have been redirected to the end of the survey.

Start of Block: model

model Which Tesla model do you own?

long How long have you owned your Tesla vehicle?

- ☐ 0-1 year (1)
- ☐ 2-5 years (2)
- ☐ 5-7 years (3)
- ☐ 7 years or more (4)

purchase Did you purchase the Tesla vehicle yourself?

- ☐ Yes (1)
- ☐ No (2)

drive Do you usually drive the Tesla vehicle?

- ☐ Yes (1)
- ☐ No (2)

Start of Block: performance

instructions **Please rate the extent to which you agree with the following statements on the performance of your vehicle:**

acceleration The acceleration and responsiveness of my Tesla meet my expectations for different driving conditions, such as city or highway.

smooth My Tesla provides a smooth and quiet ride compared to other cars I've driven.

End of Block: performance

Start of Block: charging

instruction **Please rate the extent to which you agree with the following statements regarding your vehicle charging experience:**

ease I can easily locate a Supercharger or other charging station when I'm on the road.

issues I rarely experience issues with charging speeds or station availability during busy travel times.

End of Block: charging

Start of Block: level_of_automation

av_info **Please read the information presented below carefully in order to be able to understand and answer the survey questions. Below is a table depicting 6 possible types of vehicles. The different types are based on how many driving tasks are controlled by the human driver ('HUMAN') versus the self-driving system ('MACHINE').** In level 1, the human controls all driving tasks, whereas in level 6, the machine controls all driving tasks. The levels in-between differ in which driving tasks are controlled by the human versus the machine.

comp_1 **You were shown a table. What did the table represent?**

- ☐ The number of typical daily tasks controlled by humans vs. machines (1)
- ☐ Different types of vehicles based on how many driving tasks are controlled by humans vs. machines (2)
- ☐ Six people's preferences for humans vs. machines (3)

comp_2 **What were the values for vehicle type #1 (the one at the top of the table)?**

- ☐ MACHINE, HUMAN, HUMAN, MACHINE (1)
- ☐ HUMAN, MACHINE, MACHINE, HUMAN (2)
- ☐ MACHINE, MACHINE, MACHINE, MACHINE (3)
- ☐ HUMAN, HUMAN, HUMAN, HUMAN (4)
